## SKILLS & TECH STACK

---

- **Languages:** JavaScript, TypeScript.
- **Frameworks & Libraries:** React, Next.js, Express, Node.js.
- **Web Technologies:** HTML, CSS, Tailwind CSS.
- **Tools & Platforms:** Git, Webpack, Vite, Jest.
- **Familiar with:** Prisma, Zod, PostgreSQL, MongoDB.

## PROJECTS

---

### OpenAI Powered Travel Application | [\[GitHub\]](#) | [\[Live Demo\]](#)

*Tech Stack: React, React Query, Next.js, JavaScript, Prisma, Neon, Clerk, Tailwind CSS.*

- Created an AI-powered travel companion using the OpenAI API to deliver personalised itineraries and suggestions.
- Optimised API calls to reduce load times and improve overall app performance, ensuring a smoother user experience.
- Designed an intuitive, mobile-friendly interface with Tailwind CSS and enabled secure access with Clerk.
- Integrated Prisma with Neon (PostgreSQL) for efficient data storage and retrieval, improving app scalability.

### Food Delivery Web Application | [\[GitHub\]](#) | [\[Live Demo\]](#)

*Tech Stack: TypeScript, React, Node.js, MongoDB, React Query, React Router, Auth0, Zod, Tailwind CSS.*

- Built a dynamic food delivery platform with React and Node.js, featuring secure user authentication via Auth0.
- Streamlined data fetching with React Query and improved navigation using React Router.
- Implemented a customizable menu feature, allowing restaurant owners to easily update offerings and manage orders.
- Ensured data validation with Zod to prevent errors and enhance security.

### Portfolio Website | [\[GitHub\]](#) | [\[Live Demo\]](#)

*Tech Stack: Next.js, React, TypeScript, Tailwind CSS.*

- Built a fast, responsive portfolio to showcase projects and skills, with a clean, minimalist design for easy navigation.
- Styled the application with Tailwind CSS for a consistent, mobile-first UI that enhances user experience.
- Used TypeScript for type-checking, improving code quality and maintainability.
- Deployed on Vercel for automated builds, continuous deployment, and optimised content delivery.

## WORK EXPERIENCE

---

### Web Development Experience | London, UK | March 2023 – Present

- Completed intensive web development courses, gaining hands-on experience in **JavaScript, React, Next.js, and TypeScript**.
- Built full-stack applications focused on responsive design, performance, and user experience.
- Worked with RESTful APIs, third-party integrations, and tools like Git for version control and collaboration.
- Implemented secure authentication, state management, and data fetching using modern frameworks and libraries.

### Chestertons | Marylebone, London, UK | June 2023 – February 2024

*Senior Lettings Negotiator*

- Assessed and qualified landlords' needs, resulting in successful negotiations of complex lease agreements with tenants.
- Maintained high client satisfaction and exceeded deal volume targets by optimising strategies based on KPI analysis.
- Built strong relationships with high-net-worth clients, enhancing repeat business and client retention.

### Foxtons | Marylebone & Mayfair, London, UK | February 2018 – March 2023

*Senior Lettings Negotiator*

- Oversaw the full lettings process, cultivating a collaborative environment and mentoring new team members.
- Consistently surpassed personal targets by 15%, securing tenancies for over 350 properties through effective negotiation.
- Developed and maintained strong landlord relationships, boosting client retention and repeat business.

## EDUCATION

---

### Web Development Courses

- Full Stack JavaScript – [The Odin Project](#)
- Beginner/Advanced JavaScript – [JavaScript Simplified](#)
- The Ultimate React Course – [Udemy](#)
- The Complete Web Development Bootcamp – [Udemy](#)

University of Craiova – Politics
